### GR-3.1 CBB Non-Objection Approval on Dividends

**GR-3.1.1** Bahraini Islamic bank licensees must obtain CBB's prior approval for any proposed cash or stock dividend before any public announcements or the Annual General Meeting. ~~a letter of no objection from the CBB to any dividend proposed, before announcing the proposed dividend by way of a press announcement or any other means of communication and prior to submitting a proposal for a distribution of profits to a shareholder vote.~~

GR-3.1.2 The CBB will grant a no-objection letter where it is satisfied that the level of dividend proposed is unlikely to leave the licensee vulnerable for the foreseeable future to breaching the CBB's capital requirements, taking into account (as appropriate) the licensee's liquidity and the adequacy of provisions against impaired loans or other assets.

**GR-3.1.3** ~~To facilitate the prior approval required under~~ For the purpose of Paragraph GR-3.1.1, Islamic bank licensees must ~~subject to GR 3.1.1 must provide the CBB with:~~

- (a) Submit the following:
  - (i) The intended percentage and amount of proposed dividends;
  - (ii) The impact of proposed dividends on:
    - (a) Capital Adequacy Ratio (CAR), Liquidity Coverage Ratio (LCR), Net Stable Funding Ratio (NSFR), and Leverage Ratio (LR) showing the ratios before and after the proposed dividends;
    - (b) The cash flow position and shareholders' equity level before and after the proposed dividends;
  - (iii) Stress testing results evidencing that the proposed dividends would not lead to any breach if the regulatory requirements (CAR, LCR, NSFR and LR) in the last financial year and the next two years under normal and stressed scenarios.
- (b) Satisfy the CBB of the adequacy of impairment provisions during the review of the annual/interim financial statements;
- (c) Ensure that any unrealized gains arising from assets or liabilities fair value assessment are excluded from net income in the determination of the proposed dividends, given that CBB does not permit distribution of unrealised profit;
- (d) Ensure that the Total Comprehensive Income is adequate to cover the proposed dividends; and
- (e) Ensure that any negative fair value on assets held at amortised cost do not have any material adverse impact on the capital and liquidity positions where such assets may need to be liquidated before maturity to satisfy any financial obligations, including deposit withdrawals.
