HC-A.1 Executive Summary

Purpose

- HC-A.1.1 The purpose of this Module is to:
- Explicitly reinforce the collective oversight and risk governance responsibilities of the board;
 - Emphasise key components of risk governance such as risk culture, risk appetite and their relationship to a licensee's risk capacity;
 - Delineate the specific roles of the board, board committees, senior management, chief financial officer, internal auditor, chief risk officer and head of compliance; and
 - Strengthen licensees' overall checks and balances.

HC-A.1.2 All references in this Module to 'he' or 'his' shall, unless the context otherwise requires, be construed as also being references to 'she' and 'her'.

Legal Basis

HC-A.1.3 This Module contains the CBB's Directive (as amended from time to time) relating to high-level controls and is issued under the powers available to the CBB under Article 38 of the Central Bank of Bahrain and Financial Institutions Law 2006 ('CBB Law'). The Directive in this Module is applicable to Islamic bank licensees (including their approved persons).

HC-A.1.4 All Rulebook content that is categorized as a rule must be complied with by those to whom the content is addressed. Other parts of this Module are guidance paragraphs which are considered best market practices and licensees are encouraged to implement the same.

Effective Date

HC-A.1.5 The new requirements in this amended Module are effective from 1st October 2023 on which date the existing Module HC will become redundant, and any exemptions allowed under the existing Module will be subject to grandfathering requirements unless the relevant requirement has undergone change within this amended Module.

MODULE	HC: High-Level Controls
CHAPTER	HC-A: Introduction

HC-A.2 Module History

HC-A.2.1 This Module was first issued in June 2004 by the BMA and updated in October 2007 to reflect the switch to the CBB. Following the issuance of the Corporate Governance Code by the Ministry of Industry and Commerce in March 2010, the Module was amended in October 2010 to be in line with the new Corporate Governance Code and to include previous requirements that were in place in the originally issued Module HC. Any material changes that have subsequently been made to this Module are annotated with the calendar quarter date in which the change was made: Chapter UG-3 provides further details on Rulebook maintenance and version control.

HC-A.2.2 A list of recent changes made to this Module is detailed in the table below:

Module Ref.	Change Date	Description of Changes
Full Module HC	04/2023	New restructured HC Module supersedes the previous version. The new Module is consistent with Corporate Governance Principles for banks Paper issued in July 2015 by the Basel Committee on Banking Supervision.
Full Module HC	01/2024	Restructured Module HC containing Part 1 applicable to Bahraini Islamic bank licensees and Part 2 applicable to Branches of foreign banks.

MODULE	HC:	High-Level Controls
CHAPTER	HC-B:	Scope of Application

HC-B.1 Scope of Application

HC-B.1.1 This Module consists of two parts; Part one of this Module is applicable to Bahraini Islamic bank licensees whereas Part two is applicable to branches of foreign bank licensees.

HC-B.1.2 The implementation of the rules in this Module should be commensurate with the size, complexity, structure, economic significance, risk profile and business model of the licensee and the group to which it belongs, if any. DSIBs are expected to have in place the corporate governance structure and practices commensurate with their role and potential impact on national financial stability. In cases of certain licensees (e.g. smaller and limited scope Bahraini banks, Bahraini government owned banks, digital banks and any Bahraini bank wholly owned by another Bahraini bank) where CBB assesses that certain specific rules in this Module are less relevant or too cumbersome to apply, it will be willing to consider alternative governance arrangement.

HC-B.1.3 [This Paragraph has been deleted in January 2024].

HC-B.1.4 [This Paragraph has been deleted in January 2024].

CHAPTER	HC-B:	Scope of Application

HC-B.2 Subsidiaries and Foreign Branches of Bahraini Islamic Bank Licensees

HC-B.2.1

Bahraini Islamic bank licensees must ensure that, as a minimum, the same or equivalent provisions of this Module apply to their subsidiaries and overseas branches. In instances where local jurisdictional requirements are more stringent than those applicable in this Module, the local requirements are to be applied.

HC-B.2.2

Where an Islamic bank licensee is unable to satisfy the CBB that its subsidiaries and overseas branches are subject to the same or equivalent arrangements, the CBB will assess the potential impact of risks to the licensee arising from inadequate high-level controls. In such instances, the CBB may impose certain restrictions on the licensee. Where weaknesses in controls are assessed by the CBB to pose a major threat to the financial soundness of the licensee and/or the financial stability in the Kingdom, then its license may be called into question.

HC-6.1.2 The performance evaluation and remuneration of senior management and staff of the Islamic bank licensees must be based, among other factors, on their adherence to all relevant laws, regulations and CBB rulebook requirements, including but not limited to AML/CFT requirements in the FC module.

HC-6.1.3 For approved persons and material risk-takers whose total annual remuneration (including all benefits) is in excess of BD100,000:

- (a) An appropriate ratio between the fixed and variable components of total remuneration must be set to ensure that fixed and variable components of total remuneration are appropriately balanced and paid on the basis of individual, business-unit and bank-wide measures that adequately measure performance; and

The remaining portion of the deferred remuneration can be paid as cash remuneration vested over a minimum 3-year period.

HC-6.1.5 Remuneration, based on both quantitative measures and human judgement, must be adjusted for all types and magnitudes of risks, including intangible and other risks managed by the approved person and material risk-taker, and remuneration outcomes must be symmetric with risk outcomes.

HC-6.1 Remuneration of Approved Persons and Material Risk-Takers (continued)

HC-6.1.6 The mix of cash, equity and other forms of remuneration must be consistent with risk alignment. The mix will vary depending on the employee's position and role and the licensee must document the rationale for its mix.

HC-6.1.7 Employees' incentive payments must be linked to the contribution of the individual and business to such performance.

HC-6.1.8 Remuneration systems must link the size of the bonus pool to the overall performance of the licensee.

HC-6.1.9 Awards in shares or share-linked instruments must be subject to a minimum share retention policy of 6 months from the time the shares are awarded, unless the licensee's policy requires a longer period.

HC-6.1.10 The only instance where deferred remuneration can be paid out before the end of the vesting period is in the case of the death of the employee where the beneficiaries would receive any unpaid deferred remuneration.

HC-6.1.11 Licensees must not provide any form of guaranteed variable remuneration as part of the overall remuneration package. Exceptional minimum variable remuneration must only occur in the context of hiring new staff and limited to the first year.

CHAPTER	HC-6:	Remuneration of Approved Persons and Material Risk-Takers

HC-6.1 Remuneration of Approved Persons and Material Risk-Takers (continued)

HC-6.1.15 The size of the variable remuneration pool and its allocation within the licensee must not compromise the financial soundness of the licensee and must take into account the full range of current and potential risks, including:

- (a) The cost and quantity of capital required to support the risks taken;
- (b) The cost and quantity of the liquidity risk assumed in the conduct of business; and
- (c) Consistency with the timing and likelihood of potential future revenues incorporated into current earnings.

HC-6.1.16 Existing contractual payments related to a termination of employment must be re-examined and kept in place only if there is a clear basis for concluding that they are aligned with long-term value creation and prudent risk-taking. Prospectively, any such payments must be related to performance achieved over time and designed in a way that does not reward failure.

HC-6.1.17 Licensees must have an appropriate compliance mechanism to ensure that their employees commit themselves not to use personal hedging strategies or remuneration- and liability-related insurance to undermine the risk alignment effects embedded in their remuneration arrangements.

HC-6.1.18 Bonuses must either be reduced or be deferred in the event of poor licensee, divisional or business unit performance. Subdued or negative financial performance of the licensee must lead to contraction of the licensee's total variable remuneration, taking into account both current remuneration and reductions in payouts of amounts previously earned, including through malus and clawback arrangements. Recognition of staff who have achieved their targets or better, may take place by way of deferred compensation, which may be paid once the licensee's performance improves.

HC-6.1.19 If the licensee and/or relevant line of business is incurring losses in any year during the vesting period, any unvested portions must be subject to malus. Accrual and deferral of variable remuneration does not oblige the licensee to pay the variable remuneration, particularly when the anticipated outcome has not materialised.

- (d) Ongoing monitoring of the risk-taking activities and risk exposures in line with the Board-approved risk policies and appetite;

- (j) Challenging decisions that give rise to material risk.

HC-8.1.5

Licensees must have adequate risk management and approval processes for new or expanded products or services, lines of business and markets, outsourcing arrangements as well as for large and complex transactions. If such processes are not in place, a new product, service, business line or third-party relationship or major transaction must be delayed. There must also be a process to assess risk and performance relative to initial projections and to adapt the risk management treatment accordingly as the business matures. The risk management function must provide input on risks as part of such processes and on the outsourcer's ability to manage risks and comply with legal and regulatory obligations. Such processes must entail the following:

- (a) A full assessment of risks under a variety of scenarios as well as an assessment of potential shortcomings in the ability of the licensee's risk management and internal controls to effectively manage associated risks; and
- (b) An assessment of the extent to which the licensee's risk management, legal and regulatory compliance, information technology, internal control and business functions have adequate tools and the expertise necessary to measure and manage related risks.

HC-8.1.6

Licensees must appoint a chief risk officer (CRO) or equivalent with an overall responsibility for the licensee's risk management function.

- i. Risk reporting to the risk committee is carefully designed to convey bank-wide, individual portfolio and other risks in a concise and meaningful manner. Reporting must accurately communicate risk exposures and results of stress tests or scenario analyses and must provoke a robust discussion of, for example, the bank's current and prospective exposures (particularly under stressed scenarios), risk/return relationships and risk appetite and limits. Reporting must also include information about the external environment to identify market conditions and trends that may have an impact on the bank's current or future risk profile;

Material risk-related ad-hoc information that requires immediate decisions or reactions is promptly presented to senior management and, as appropriate, the risk committee, the responsible officers and, where applicable, the heads of control functions so that suitable measures and activities can be initiated at an early stage; and
 - iii. The licensee has accurate internal and external data to be able to identify, assess and mitigate risks.

- (e) Ensure the compliance function's right to:
 - i. Have unrestricted access to any records or files necessary to carry out its responsibilities, and the corresponding duty of licensee staff to co-operate in supplying this information;

HC-9.1.5

HC-9.1.8

The compliance function must:

- (b) Carry out its responsibilities under a risk-based compliance programme that sets out its planned activities, such as the implementation and review of specific policies and procedures, compliance risk assessment and compliance testing;

- (e) Monitor and test compliance by performing sufficient and representative compliance testing. The results of such testing must be reported to the Audit Committee;
- (f) Advise the audit committee and senior management on all relevant laws, regulations and standards in all jurisdictions in which the licensee conducts its business and inform them on developments on the subject;

CHAPTER	HC-10:	Internal Audit

HC-10.1 Internal Audit

HC-10.1.1

Islamic bank licensees must establish an effective and independent internal audit function (IAF).

HC-10.1.2

The Audit Committee remains ultimately responsible for the IAF regardless of whether internal audit activities are outsourced.

HC-10.1.3

The Board, Audit Committee and senior management must:

- (a) Promote a strong and robust internal control environment within the licensee;
- (b) Provide the IAF staff full and unconditional access to all files, records, data, documents, systems, properties, subsidiaries and overseas branches of the licensee;
- (c) Require that all internal audit findings and recommendations are resolved within a reasonable period of time to be set based on level and magnitude of risk;
- (d) Allocate sufficient annual budget to support the IAF's activities and plans; and
- (e) Inform the IAF of new developments, initiatives, projects, products and operational changes.

HC-10.1.4

All Bahraini Islamic bank licensees must have an internal audit charter which must be drawn up and reviewed annually by the head of internal audit and approved by the Board or Audit Committee. It must be available to all internal stakeholders, and to external stakeholders in case of a listed bank.

HC-10.1.5

The internal audit charter must establish, at a minimum:

- (a) The IAF's standing within the licensee, its authority, responsibilities and relations with other control functions in a manner that promotes the effectiveness of the function;
- (b) The purpose and scope of the IAF;
- (c) The obligation of the internal auditors to communicate the results of their engagements and a description of how and to whom this must be done (reporting line);
- (d) The criteria for when and how the IAF may outsource some of its engagements to external experts;
- (e) The terms and conditions according to which the IAF can be called upon to provide consulting or advisory services or to carry out other special tasks without creating a conflict with its core function;
- (f) The responsibility and accountability of the head of internal audit;

CHAPTER	HC-10:	Internal Audit

HC-10.1 Internal Audit (continued)

- (g) The requirement to comply with the international standard on internal audit issued by The Institute of Internal Auditor; and
- (h) Procedures for the coordination of the IAF with the external auditor.

HC-10.1.6

The IAF must:

- (a) Be independent of all functions;
- (b) Have sufficient standing and authority within the licensee;
- (c) Have sufficient skilled resources to be able to judge outcomes and make an impact at the highest level of the organization;
- (d) Be able to perform its assignments on its own initiative in all areas and functions of the licensee based on the audit plan established by the head of the IAF and approved by the audit committee;
- (e) Be free to report its findings and assessments internally;
- (f) Independently review and evaluate the effectiveness and efficiency of all functions, internal controls, risk management, internal risk and finance models, governance framework, policies, procedures, systems and processes, including the licensee's outsourced activities and its subsidiaries (including SPVs) and local and overseas branches, and must ensure adequate coverage of matters of regulatory interest within the audit plan;
- (g) Develop an independent and informed view of the risks faced by the licensee based on its access to all licensee records and data, its enquiries and its professional competence;
- (h) Discuss its views, findings and conclusions directly with the audit committee and, if necessary, with the board of directors at their routine quarterly meetings; and
- (i) Not be involved in designing, selecting, implementing or operating specific internal control measures. However, the independence of the IAF must not prevent senior management from requesting input from the IAF on matters related to risk and internal controls. Nevertheless, the development and implementation of internal controls must remain the responsibility of management.

MODULE	HC:	High-Level Controls
PART	ONE:	Bahraini Islamic Bank Licensees
CHAPTER	HC-10:	Internal Audit

- (f) Establish an annual internal audit plan approved by the audit committee. The plan must be based on a robust risk assessment, including direct or indirect input from the board, audit committee and senior management;
- (g) Develop and maintain appropriate tools to assess the quality of the IAF; and

CHAPTER	HC-10:	Internal Audit

HC-10.1 Internal Audit (continued)

HC-10.1.8 The head of IAF should, whenever practicable and without jeopardising competence and expertise, periodically rotate internal audit staff within the internal audit function.

HC-10.1.9 The CBB may at its own discretion communicate directly with the head of the IAF to discuss issues of material concerns related to risks, compliance and internal controls.

HC-10.1.10 Internal audit reports must be provided to the audit committee without management filtering.

HC-10.1.11 All internal audit staff must:

- (a) Apply the care and skills expected of a reasonably prudent and competent professional. Due professional care does not imply infallibility. Internal auditors having limited competence and experience in a particular area must be appropriately supervised by more experienced staff;

CHAPTER	HC-C:	Scope of Application

HC-C.1 Scope of Application

HC-C.1.1

This chapter applies to branches of foreign bank licensees who should satisfy the CBB that equivalent or similar arrangements are in place at either the branch or the parent entity level, and that such arrangements provide for effective high-level controls over activities conducted by the branch, commensurate with the size, complexity, nature and the risk profile of the branch. If the branch is unable to satisfy the CBB that the governance arrangements are equivalent, the CBB will assess the potential impact of risks and require that the licensee satisfies that compensating alternative arrangements are in place to address any risks relevant to the Bahrain operations.
