MIR-3.3 Fit and Proper (continued)

MIR-3.3.1B In assessing the conditions prescribed in Rule MIR-3.3.1A, the CBB will take into account the criteria contained in Paragraph MAE-3.3.1C. The CBB reviews each application on a case-by-case basis, taking into account all relevant circumstances. A person may be considered 'fit and proper' to undertake one type of controlled function but not another, depending on the function's job size and required levels of experience and expertise. Similarly, a person approved to undertake a controlled function in one member may not be considered to have sufficient expertise and experience to undertake nominally the same controlled function but in a much bigger member.

MIR-3.3.1C In assessing a person's fitness and propriety, the CBB will also consider previous professional and personal conduct (in Bahrain or elsewhere) including, but not limited to, the following:

- (a) The propriety of a person's conduct, whether or not such conduct resulted in a criminal offence being committed, the contravention of a law or regulation, or the institution of legal or disciplinary proceedings;
- (b) A conviction or finding of guilt in respect of any offence, other than a minor traffic offence, by any court or competent jurisdiction;
- (c) Any adverse finding in a civil action by any court or competent jurisdiction, relating to misfeasance or other misconduct in connection with the formation or management of a corporation or partnership;
- (d) Whether the person, or anybody corporate, partnership or unincorporated institution to which the applicant has, or has been associated with as a director, controller, manager or company secretary been the subject of any disciplinary proceeding, investigation or fines by any government authority, regulatory agency or professional body or association;
- (e) The contravention of any financial services legislation;
- (f) Whether the person has ever been refused a license, authorisation, registration or other authority;
- (g) Dismissal or a request to resign from any office or employment;
- (h) Whether the person has been a Director, partner or manager of a corporation or partnership which has gone into liquidation or administration or where one or more partners have been declared bankrupt whilst the person was connected with that partnership;
- (i) The extent to which the person has been truthful and open with supervisors; and
- (j) Whether the person has ever entered into any arrangement with creditors in relation to the inability to pay due debts.

MIR-3.3.1 D With respect to Paragraph MIR-3.3.1C, the CBB will take into account the length of time since any such event occurred, as well as the seriousness of the matter in question.

They must avoid any conflict of interest arising whilst undertaking a controlled function and shall be subject, among all accepted market conducts, to the insider trading rules.

- MIR-3.3.3 In determining where there may be a conflict of interest arising, factors that may be considered will include whether:
- (a) A person has breached any fiduciary obligations to the member or terms of employment;
 - (b) A person has undertaken actions that would be difficult to defend, when looked at objectively, as being in the interest of the licensed member and its clients; and
 - (c) A person has failed to declare a personal interest that has a material impact in terms of the person's relationship with the member in general, and interest in holding any listed securities or futures contracts in particular.

Assessment of Application

- MIR-3.4.4A The CBB shall review and assess the application for approved person status to ensure that it satisfies all the conditions required in Paragraph MIR-3.3.1A and the criteria outlined in Paragraph MIR-3.3.1C.
- MIR-3.4.4B For purposes of Paragraph MIR-3.4.4A, members should give the CBB a reasonable amount of notice in order for an application to be reviewed. The CBB shall respond within 15 business days from the date of meeting all required conditions and regulatory requirements, including but not limited to, receiving the application complete with all the required information and documents, as well as verifying references.
- MIR-3.4.5 The CBB reserves the right to refuse an application for approved person status if it does not satisfy the conditions provided for in Paragraph MIR-3.3.1A and the criteria outlined in Paragraph MIR-3.3.1C. A notice of such refusal is issued by registered mail to the member concerned, setting out the basis for the decision.

Appeal Process

- MIR-3.4.6 Members or the nominated approved persons may, within 30 calendar days of the notification, appeal against the CBB's decision to refuse the application for approved person status. The CBB shall decide on the appeal and notify the member of its decision within 30 calendar days from submitting the appeal.

MIR-3.5.1

In such instances, a new application should be completed and submitted to the CBB. MIR-4.19 Market Making Practice for Liquidity Enhancement

MIR-4.19.1

This section (MIR-4.19) sets out the requirements and obligations applicable to members registered as market makers and issuers interested to enter into an agreement with market makers for the purpose of enhancing liquidity in the listed securities of the issuer.

Liquidity Enhancement Practice

MIR-4.19.2

Issuers, whose securities are already listed on a licensed exchange or licensed market operator and where the securities based on the criteria established by the licensed exchange or licensed market operator are eligible for market making, may enter into a market making agreement with a market maker with an objective to enhance liquidity for a specific period of time thereby encouraging regular trading activity and avoiding price fluctuations which are not in line with the market trend.

MIR-4.19.3

The market making agreement referred to in Paragraph MIR-4.19.2 must define the conditions in which the market maker will trade on behalf of the issuer by buying and selling the issuer's securities with the sole purpose of enhancing liquidity and regularity of trading in the securities.

MIR-4.19.4

An issuer concurrently must not enter into market making agreement with more than one market maker for a listed security.

Market Making Agreement

MIR-4.19.5

The market making agreement must specify the conditions within which the market maker will trade on behalf of the issuer by buying and selling the issuer's securities.

MIR-4.19.6

The sole purpose of the market making agreement must be to enhance liquidity and improve regularity of trading.

MIR-4.19.7

The market making agreement must establish the initial balances and the minimum balances to be maintained in the securities account and the bank account to ensure continuity of market making activity and the measures to be adopted when the balances in the two accounts are insufficient to enable trades under the market making agreement.

MODULE	MIR: Market Intermediaries and Representatives
CHAPTER	MIR-4 Business Standards and Ongoing Obligations

MIR-4.19 Market Making Practice for Liquidity Enhancement (continued)

MIR-4.19.8 The market making agreement must establish the market maker's independence as a provider of liquidity.

MIR-4.19.9 The market making agreement must establish the conditions for the remuneration payable by the issuer to the market maker.

MIR-4.19.10 The duration of the market making agreement must not exceed a period of 12 months. Upon completion of the initial 12 months period and subject to mutual agreement of issuer and market maker, the market making agreement may be extended for an additional period of 12 months provided the licensed exchange or licensed market operator grants its approval for such an extension.

Independence of the Market Maker

MIR-4.19.11 The market maker must carry out the transactions under the market making agreement with total independence from the issuer, and neither the market maker nor the issuer may request or give any type of instructions or guidance. In particular, the issuer must not instruct, guide or intervene in the trading activity and the market maker must have sole discretion as to the timing of transactions in the issuer's securities.

MIR-4.19.12 The market maker must have an internal organisational structure such that trading decisions concerning the market making activities are independent from the activities related to investment services, proprietary account, client account or any other services provided by the market maker.

MIR-4.19.13 Without prejudice to being reimbursed for the expense incurred towards market making, the remuneration method of the market maker must be consistent with the purpose of the activity and must not impair the market maker's independence.

MIR-4.19.14 An issuer must ensure that the remuneration method does not encourage the market maker to influence the security price and/or trading volume through trades in the security. To that end, fees must be set within reasonable and justifiable levels with a maximum cap.

CHAPTER	MIR-4 Business Standards and Ongoing Obligations

MIR-4.19 Market Making Practice for Liquidity Enhancement (continued)

MIR-4.19.15 A market maker must not use its own funds to engage in trades under the market making agreement.

Securities account and bank account associated with the market making agreement

MIR-4.19.16 Trades performed under the market making agreement must be recorded through entries made by the market maker in two accounts, (i) a securities account and (ii) a bank account, both opened in the name of the issuer and used solely for market making transactions.

MIR-4.19.17 When the market making agreement is terminated, regardless of the reason, the securities account and the bank account referred to in Paragraph-MIR-4.19.16 must be cancelled in accordance with the following procedure:

- a) Bank account:** The market maker will transfer the balance to another account designated by the issuer.
- b) Securities Account:** The market maker must sell the securities in the securities account. Such sales must be performed in the issuer's best interests but without interfering with or hampering normal market operations and without misleading other market participants.

MIR-4.19.18 Provisions of Paragraph MIR-4.19.17 should not apply where:

- a)** The securities are transferred to another market maker entrusted with another market making agreement by the same issuer.
- b)** The issuer, upon termination of market making agreement, may recover a number of securities, in which case that number may not exceed the number of securities initially deposited by the issuer.

Non-withdrawal of Securities

MIR-4.19.19 Unless the market making agreement is terminated, securities allocated by the issuer for the purpose of market making or securities acquired during the course of market making activity cannot be withdrawn from the securities account except as a result of transactions carried out under the market making agreement.

- MIR-4.19.21** Trades executed within the framework of market making agreement must not create artificial change in the securities price with respect to the market trend, or hamper the market's normal operations, or mislead other market participants.
- MIR-4.19.22** In the course of discharging its obligation to provide liquidity, the market maker must trade in the official secondary market of the licensed exchange or licensed market operator and in accordance with the trading rules.
